Rosemary Paur, founder of the Global PA Network & PAs of Excellence Ltd, coach, trainer and public speaker will work with delegates in the morning session on:

'What are the Skills required to move from Personal Assistant to Executive Assistant?'

Research has shown that more PAs than ever are taking on managerial responsibility in their role e.g. sitting on committees, taking minutes, managing other PAs and Secretaries, event organising, HR duties etc. **Rosemary** will lead on this session and through exercise and brainstorming work with the group to define a blueprint of **management skills** that a 21c PA now requires and how you can put them into practice to make your working day more effective and productive. These skills will help you **manage difficult situations with confidence, communicate effectively** and help you **handle issues at work** with tact and discretion.

Testimonials from 13th November 2008 Masterclass

'I found the Masterclass very thought provoking and stimulating and I think you and Sue did a wonderful job of maintaining the group's interest and participation.' **Gillian, Royal Bank of Scotland**

'The workshop provided an opportunity to re-focus on the professionalism and changing demands of the senior secretarial/PA role which is often overlooked when we spend our time helping our managers to achieve their objectives. Rosemary's own experience at senior level gave an added depth and enabled her to empathise with our situations. The sessions were well structured and stimulating and I would encourage anyone who gets the opportunity to attend to do so.' **Diane, Private Bank**

'I found the Masterclass extremely useful, it was great to be able to interact and the presenters were excellent. The mix of people was very interesting and gave me a much better vision of how PAs in different companies operate. At a difficult time in my career the Masterclass re-energised me completely. Overall it was a very well organised and stimulating day and I took away a lot of useful tips, and got a really good idea of how I'm being perceived by others. I would like to wish Rosemary and her team a lot of success and compliment them on what they have achieved so far.' **Kathleen, BT Global Services**
